

## PLANNING & ZONING PERMITS

To receive Permit documents through e-mail:

Open a new e-mail.

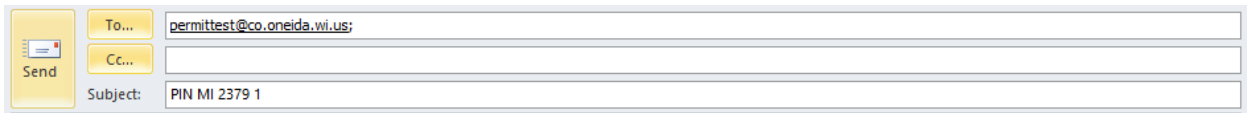

In the 'To...' line type: [pzpermits@co.oneida.wi.us](mailto:pzpermits@co.oneida.wi.us)

In the 'Subject' line type: PIN MI 2379 1 (the parcel you want permits for)

Do not put anything in the body of the e-mail as it is not read by our system.

Click the 'Send' button.

It's that easy! Well sort of, the Subject field **MUST** be typed in a very specific way in order to get your e-mail back. Your first three characters must be **PIN** (for Parcel Identification Number). Then you must have a **space**. The next two letters must be the **town code**. Then you must have a **space**. The next characters must be the **parcel number**. Then you must have a **space**. The last characters will be the **parcel sub number** (if there is one). If you vary from this at all, an e-mail will not be sent back to you.

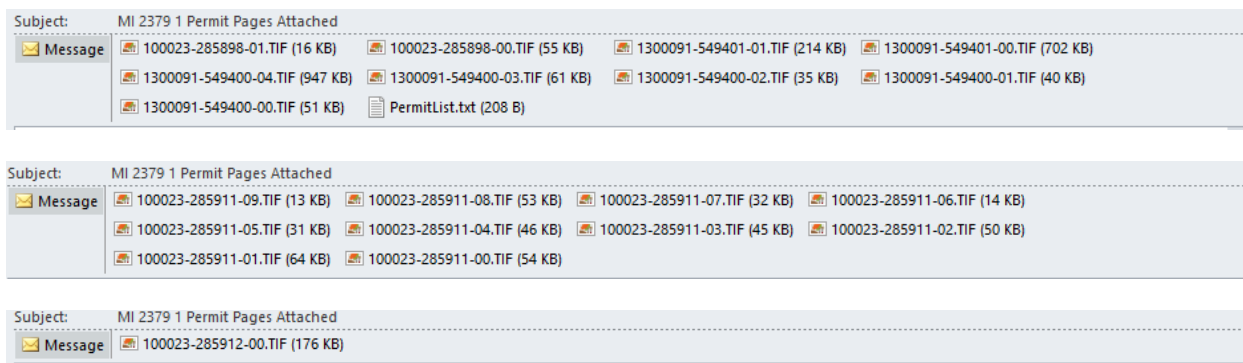

|      |          |  |
|------|----------|--|
| Send | To...    | <a href="mailto:permitted@co.oneida.wi.us">permitted@co.oneida.wi.us</a> |
|      | Cc...    |  |
|      | Subject: | PIN MI 2379 1  |

If you have done this correctly you will receive an e-mail (or multiple e-mails) back with the permit documents for that parcel. From the time you click 'Send' the e-mail can take about 2-5 minutes. If it has been longer than 5 minutes, check your sent items and make sure you formatted the 'Subject:' line correctly. Depending on your e-mail system, this could take even longer.

If you believe you have done everything correctly and have waited at least 10 minutes, forward your sent e-mail to our helpdesk ([helpdesk@co.oneida.wi.us](mailto:helpdesk@co.oneida.wi.us)) and we take a look at it as soon as possible.

The E-mail(s) you receive back will look like this:

The first e-mail you receive will have up to 10 attachments. The last attachment on the first e-mail will be PermitList.txt. Only the permits that have electronic images from Oneida County will be attached. If the parcel has more than 10 attachments, you will be sent additional e-mails with the rest. The PermitList.txt file on the first e-mail will tell you which permit numbers have attached images and which do not. If you only receive one e-mail back with PermitList.txt as the only attachment then there are no electronic images for that parcel.

In the PermitList.txt file there will be a list of information about permits for that parcel.

Here is the key to the PermitList.txt file:

The very first character in quotes will be the image flag of "Y" or "N". This is either telling you that "Y" yes there are images attached for that permit or "N" no there are not images attached for that permit. If you want copies of permits that are marked with "N" you will have to call the Planning & Zoning office at 715-369-6130.

The next character in quotes will be permit type of "S" for Sanitary or "Z" for Zoning.

The next set of characters in quotes will be the permit number itself. Permits with a subletter like 'A' or 'B' will not have their own images attached but will be included in the parent permit number. Note: the permit numbers start with the 2 digit year of issue.

The last set of characters in quotes will be the permit code and subtype code. These codes are listed on the attached page.

Hint: We have found that copying all the e-mail attachments for the parcel to a folder on your computer is the best way to look at them in sort order.

## PERMIT MASTER FILE CODES

### SEPTIC SYSTEM TYPE CODES

|                   |                                 |
|-------------------|---------------------------------|
| <b>1A</b>         | Conventional Seepage Bed        |
| <b>1B</b>         | Conventional Seepage Trench     |
| <b>1C</b>         | Conventional Seepage Pit        |
| <b>1D</b>         | Conventional In-Ground Pressure |
| <b>2D</b>         | Alternate Privy                 |
| <b>7</b>          | Not a private sewage system     |
| <b>1E or SIF</b>  | Conventional System in fill     |
| <b>2A or MD</b>   | Mound                           |
| <b>2B or IGP</b>  | In-Ground Pressure              |
| <b>2C or HT</b>   | Holding Tank                    |
| <b>2E or AG</b>   | At-Grade                        |
| <b>3 or EXP</b>   | Experimental                    |
| <b>4 or TANK</b>  | Tank Only                       |
| <b>5 or REP</b>   | Repairs                         |
| <b>6 or RECON</b> | Reconnections                   |

|                |                        |
|----------------|------------------------|
| <b>AT-RISK</b> | At-Risk                |
| <b>ATU</b>     | Aerobic treatment unit |
| <b>CW</b>      | Constructed wetland    |
| <b>DL</b>      | Drip line              |

|              |   |
|--------------|---|
| <b>IGEF</b>  | In ground easy flow                                   |
| <b>IGefd</b> | In ground easy flow ( <b>dosing</b> )                 |
| <b>IGST</b>  | In ground stone ( <b>non-pressurized</b> )            |
| <b>IGLC</b>  | In ground leaching chamber ( <b>non-pressurized</b> ) |
| <b>IGSTD</b> | In ground stone ( <b>dosing</b> )                     |
| <b>IGLCD</b> | In ground leaching chamber ( <b>dosing</b> )          |

|                |  |
|----------------|--|
| <b>ISD</b>     | Individual site design   |
| <b>REST</b>    | Restoration (physical or chemical)   |
| <b>REV</b>     | Revision   |
| <b>RENEWAL</b> | Sanitary Permit Renewal  |
| <b>FILTER</b>  | Filter installation only   |
| <b>NSOR</b>    | No system of record (used only for "55" records put on the maintenance program w/o soils or system type known) |
| <b>SPDP</b>    | Sanitary permit listed under different parcel number (Ex. condos/shared systems)                               |

### Sand Filters

|             |                           |
|-------------|---------------------------|
| <b>SPSF</b> | Single pass sand filter   |
| <b>RSF</b>  | Recirculating sand filter |

### Nonplumbing sanitary systems

|                  |                     |
|------------------|---------------------|
| <b>FED/STATE</b> | Co permit not req'd |
| <b>PP</b>        | Pit privy           |
| <b>VP</b>        | Vault privy         |
| <b>CT</b>        | Composting toilet   |
| <b>IC</b>        | Incinerating toilet |

**R = Replacement    N = New**

**If the system is no longer in service, never installed, or replaced, the "contact unable" field will be marked with a 'Y'.**
